SUMMARY

Full Stack Developer experienced in building production SaaS platforms, AI-powered applications, business automation systems, and responsive web applications. Strong across React, Next.js, Node.js, NestJS, PostgreSQL, Redis, Stripe, Azure, REST APIs, and cloud deployment. Experienced in owning features end-to-end, from database and API design to frontend development, third-party integrations, and production deployment.

EXPERIENCE

Full Stack Developer

Dec 2025 – Present

HyperLogic

Remote

- Delivered **3 production platforms** across SaaS, booking, and digital media domains by owning frontend, backend, database, integration, and deployment workflows.
- Built a **multi-tenant AI SaaS platform** supporting voice agents, lead automation, scheduling, payments, analytics, and subscriptions by developing scalable React, NestJS, PostgreSQL, and Redis architecture.
- Integrated **8+ external services** including Azure Communication Services, Azure Speech, Azure OpenAI, Stripe Connect, Google Calendar, Microsoft Outlook, Apple Calendar, and Strapi to deliver connected business workflows.
- Delivered production booking and subscription platforms by implementing reservation, payment, media, authentication, and administrative workflows for **Big Break Snooker** and **Hypno Switch**.
- Co-developed **Zintari AI** as one of 2 engineers, owning frontend architecture, multilingual UI across **9 languages** via Strapi, AI voice integrations, authentication, Stripe payments, calendar scheduling, and production deployment.
- Co-developed **Big Break Snooker** as one of 2 engineers, owning core booking, dynamic pricing, scheduling, database design, REST APIs, and payment workflows end-to-end through production deployment.

PROJECTS

Zintari AI – AI-Powered SaaS Platform | *React, NestJS, PostgreSQL, Redis, Azure, Stripe*

2025 – 2026

- Delivered a **multi-tenant business automation platform** by developing AI inbound/outbound voice agents, campaigns, lead management, scheduling, quotes, invoices, payments, analytics, and subscriptions.
- Enabled **3 calendar ecosystems** by integrating Google Calendar, Microsoft Outlook, and Apple Calendar with availability-based appointment scheduling and team management.
- Implemented **5+ administrative capabilities** including RBAC, tenant isolation, Super Admin/Sub-Admin management, tenant impersonation, audit logging, and support workflows.

– **Live:** portal.zintariai.com

Zintari AI – Marketing Website | *Next.js, Redux, Strapi, Tailwind CSS*

2026

- Delivered a **production multilingual marketing website** by building reusable Next.js components, dynamic Strapi content, responsive layouts, lead generation, authentication CTAs, performance optimization, and SEO structure.
- Built reusable content architecture supporting **multiple localized experiences** through Strapi CMS and REST APIs.

– **Live:** zintariai.com

Big Break Snooker – Booking System | *React, Node.js, Express, PostgreSQL, Tailwind CSS*

2025 – 2026

- Delivered a **production online booking platform** by developing reservation workflows, dynamic pricing, scheduling, availability management, customer accounts, and administrative controls.
- Implemented **5 core booking modules** covering reservations, pricing, schedules, availability, and customer management using React, Node.js, Express, and PostgreSQL.

– **Live:** bigbreaksnooker.co.uk

CareerTrust – AI Employment Platform | *Next.js, TypeScript, Node.js, PostgreSQL, MongoDB, FastAPI*

2025 – 2026

- Delivered an **AI-powered employment platform** by implementing employment verification, resume parsing, candidate analysis, job recommendations, employer reputation scoring, sentiment analysis, analytics, and identity verification.
- Integrated **7+ AI and platform technologies** including Hugging Face Transformers, OpenCV, InsightFace, Clerk, Prisma, PostgreSQL, and MongoDB to support intelligent hiring workflows.

Hypno Switch – Music Streaming Platform | *React, Node.js, PostgreSQL, Redis*

2025

- Delivered a **subscription-based digital music platform** by implementing personalized audio creation, purchases, user libraries, vouchers, payments, and content management.
- Implemented **4+ revenue and content workflows** covering subscriptions, digital purchases, vouchers, and personalized audio management using Node.js, PostgreSQL, and Redis.
- **Live:** hypnoswitch.app

EDUCATION

Sukkur IBA University

B.S. Computer Science – GPA: 3.44 / 4.0

Sukkur, Sindh, Pakistan

Sep 2022 – Jun 2026

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL, Java, C++

Frontend: React.js, Next.js, React Native, Redux, Vite, Tailwind CSS, HTML5

Backend: Node.js, Express.js, NestJS, Prisma, REST APIs, JWT

Databases: PostgreSQL, MySQL, MongoDB, SQLite, Redis

Cloud/DevOps: Microsoft Azure, DigitalOcean, Railway, Vercel, Git, GitHub

Integrations: Stripe, Stripe Connect, Azure OpenAI, Azure Communication Services, Azure Speech, Google/Outlook/Apple Calendar, Strapi
